**Felzkowski Response to the State of the State**

**Madison, WI** – Tonight, Wisconsin Governor Tony Evers gave his final State of the State speech. Following the speech, Senate President Mary Felzkowski (R-Tomahawk) issued the following statement:

**Tonight, we heard Governor Evers take a victory lap on Legislative Republicans' accomplishments over the last seven years. As an educator, he should know better than to take credit for the work of others. Every budget that Governor Evers has introduced would raise taxes: his latest proposal would have turned a \$7 billion surplus into a \$3 billion deficit. I applaud the governor for his willingness to serve, but the fact that he waited until the eleventh hour of his governorship to address key issues like corrections reform is disingenuous, partisan, and not in the best interest of Wisconsinites.**
