

GAME CHANGERS STUDY

NORTHWESTERN UNIVERSITY

Are you between the ages of 13 and 17?

You could participate in a research study and receive a **\$60 Amazon gift card!**

The Personality Across Development Lab at Northwestern University is conducting a research study on personality development in adolescence and how that affects decision-making and leadership skills. We are looking for participants between the ages of **13 and 17** for a study that will be completed in our lab on Northwestern's Evanston campus. The study will involve filling out questionnaires about your personality, providing physical measurements, providing saliva samples for hormonal and genetic testing, and completing interactive tasks. The study will take 3.5 hours to complete.

If you are interested, please contact us and mention GAME CHANGERS:
