ArtsEarth  
P.O. Box 61266  
Palo Alto, CA 94306

Dear Friends, Patrons, and Supporters,

Many of you are familiar with [ArtsEarth's](#) work within the 501(c)3 community to better promote artists and arts communities, in the San Francisco Bay Area and worldwide through staff reviewed/published upcoming arts event submissions by artists, organizations, promoters, and the general public. We also publish original articles and photo galleries on arts engagements worldwide from the SFBA to Florida to London and elsewhere. We also have begun partnering with a variety of artists and arts organizations to spread the ArtsEarth mission well and establish a level of quality standards into 2019 with good growth and better staff this year.

**We need your help to ensure our important mission continues while upholding quality arts promotions and keeping it free to those artists and arts communities who are struggling to inform our society and enrich our cultures well worldwide through dance, film, literature, music, theatre, visual arts, and multimedia.**

If you are unable to financially donate at this time, perhaps you can put in some sweat equity by directly [volunteering with ArtsEarth](#) in a variety of positions like article creative writers and photojournalists (of all levels), or with administrative and technology based work directly here at ArtsEarth to improve our infrastructure and better support the arts communities in 2019, it would be much appreciated as well.

**Please consider making a gift today to insure artists, arts communities, and the general public flourish well in the years to come, in neighborhoods worldwide.**

Please give as generously as you can. Visit our [website](#) to donate and [read/view articles](#) by our staff or find an arts event in your area. We also welcome personal checks (Payable to: [ArtsEarth Corporation](#)). Whether you give \$50 or \$500, it all matters!

With gratitude for your support and wishing you happy holidays this season,

David Leikam  
Founder / CEO / President  
ArtsEarth
