AT-Valor, an unofficial partnership, provides integrated Public Safety Management Systems
CAD   RMS   JMS

RMS

Improve your information and evidence collection to accelerate investigations and mitigate future incidents with strategic planning through data

Incident Report / Field-Based Reporting
Arrest
Property & Evidence
Case Management
Visual Network Analytics
Custom Reports
Citations
Permits
Inventory
Vehicle Maintenance
Training Module
Interface to other vendors software, including CAD

JMS

Achieve greater efficiency, improved communication, and reduced costs + increased safety. Your jail facility and IT staff will have enjoy control of the JMS system configuration.

Prebook & Probable Cause
Embedded Mugshot System
Classification
Facility (Pod) Management
Inmate Tracking/Scheduling
Basic Medical Records Module
Administration / Sentencing
Programs Management/ Alt Corrections
Inmate Accounting
Interface engine, incl capabilities with hardware (RFIDs/barcode, biometric, signature pads) & other corrections vendors software

Best-of-breed systems partnered to provide a seamless workflow that will reduce time, increase efficiencies, and lessen admin workload with removal of duplicate inputs

On-premise or Cloud solutions available
