CyndyNurse@gmail.com

Faith Community Nursing is a specialized practice of professional nursing that focuses on intentional care of the spirit as well as the promotion of whole-person health and the prevention or minimization of illness within the context of a faith community and wider community. (Faith Community Nursing Scope and Standards of Practice, 3rd edition).

It is a specialty recognized by the American Nursing Association.

Target Audience:

This course is for Registered Nurses in supportive congregations, communities and work sites who are called to learn and enhance the spiritual and holistic practice of nursing.
