

A. DUE PYLE

2021

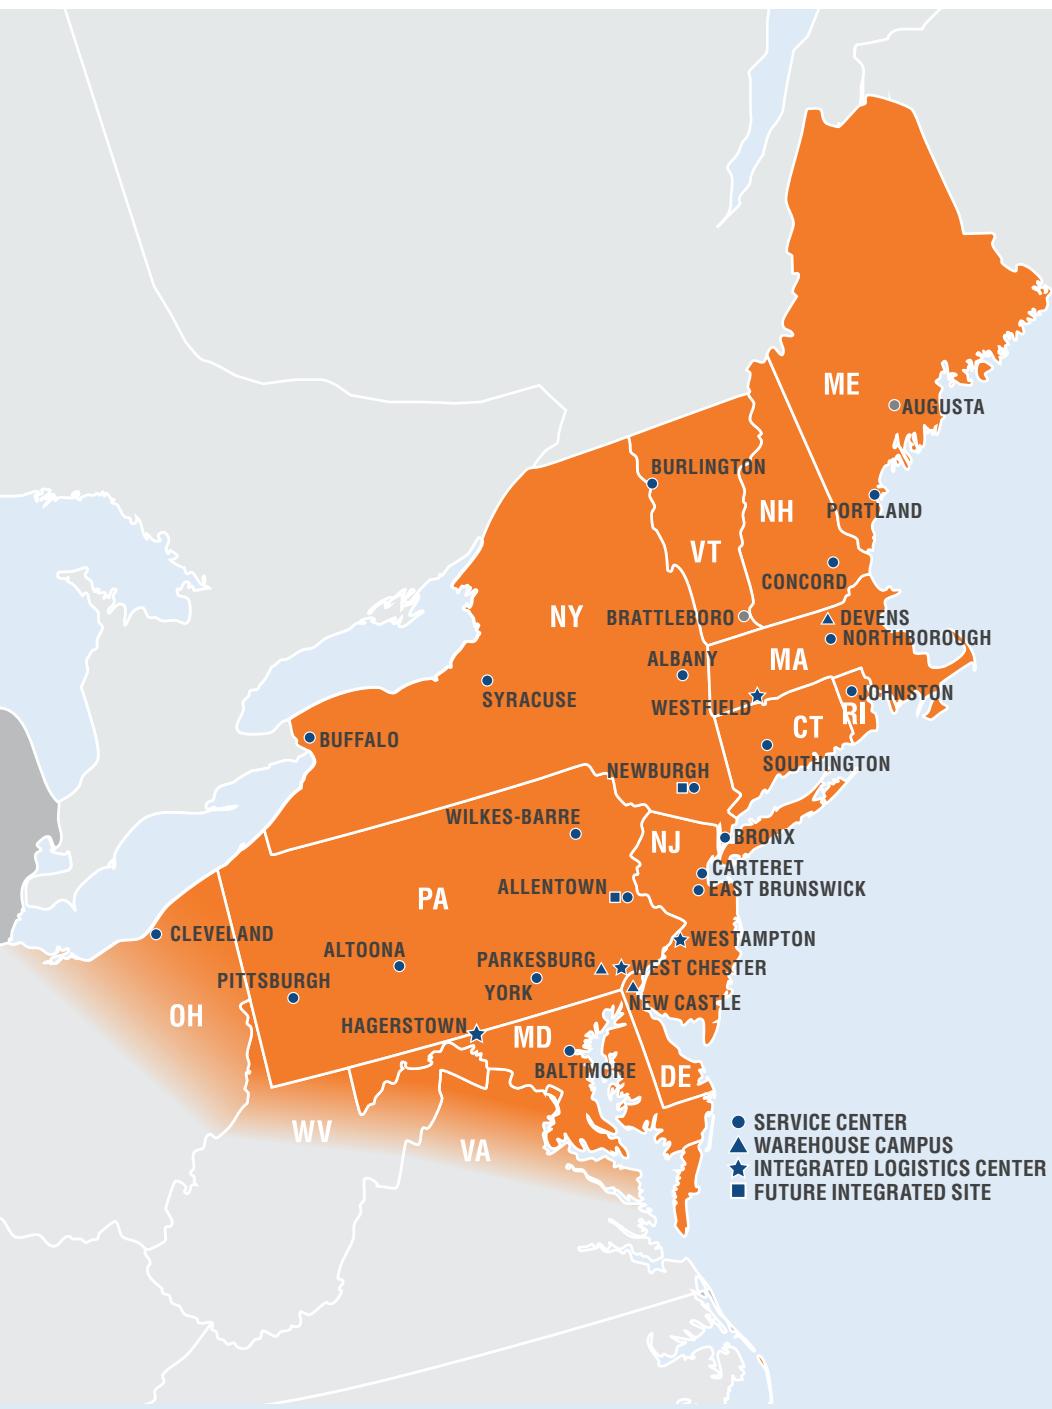

FITNESS REPORT

I want to express my heartfelt appreciation and gratitude to You, Our Customers, for what you have endured and accomplished this year in helping our country and economy move forward. As your supply chain solutions partner, it is a great privilege assisting you in accomplishing this task, and it is one which we never take for granted.

This and every year, we will continue to be guided by our Pyle Core Values, particularly when it comes to doing the right thing for long term success. Abiding by these principles enables us to better serve you in new and more efficient ways. In keeping with these Core Values, we will continue to invest in the equipment, facilities and technology to support our company and allow us to provide you with cutting edge, comprehensive supply chain services that consistently exceed your expectations.

On behalf of the entire Pyle Team, thank you for entrusting us with your business when it matters most. We look forward to consistently delivering exceptional value for you into the future.

 Peter Latta
Chairman & CEO

CAPACITY

A. Due Pyle is the Northeast's premier transportation and logistics provider offering integrated services for custom engineered supply chain solutions. Pyle's depth of resources, continual investment in infrastructure and diverse capabilities enable customers to source and seamlessly integrate multiple solutions with a single point of accountability.

SOLUTIONS DESIGN

Our team of engineers and consultants work across our enterprise solutions analyzing your data to discover new possibilities and service enhancements for your supply chain. Taking a comprehensive view of your network, our team develops creative and customized solutions tailored to your unique business specifications.

LTL

Empowered by 24 LTL Service Centers and 1,350 professional drivers, our team can move your product across the most densely populated areas in the Northeast/Mid-Atlantic states quickly, with less handling, all with friendly service that goes above and beyond customer expectations.

DEDICATED

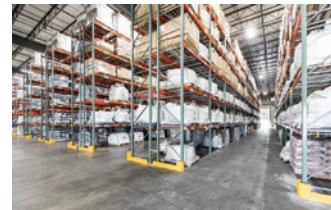

With Pyle Dedicated, all of our resources become yours: service centers, modern equipment, solutions design consultants, professional drivers – all of these assets and more align to efficiently and cost-effectively handle your transportation needs so you can focus on the core strengths of your business.

LOGISTICS

From dry-van truckload to specialized equipment, intermodal shipping and drayage, our Logistics Specialists can handle it all. We work with thousands of like-minded, service oriented partner carriers to get your product moving with more personalized service than the large brokers.

WAREHOUSING

Pyle's Warehouse & Distribution assets provide our customers with millions of square feet in the constrained Northeast market. Combined with our Integrated LTL Service Centers, we can have your product stored, sorted and ready to move across the Northeast at a moment's notice.
