Subject: C-100A Tree Removal Notice
Phase 4 – S.W. 136th Street (Howard Drive) to 152nd Street (Coral Reef)

Dear Resident,

The South Florida Water Management District (District) is a regional governmental agency that oversees the water resources in the southern half of the state. Our mission is to manage and protect the water resources of the region by balancing and improving flood control, natural systems and water supply.

As part of its flood control mission, the District will be removing trees within its easements along the C-100A Canal that may affect conveyance of water. The next phase of this project, between S.W. 136th Street (Howard Drive) and 152nd Street (Coral Reef), is scheduled to begin on or after January 2, 2019. As part of this project, all trees within the District's easements will be removed. If your property is adjacent to the C-100A Canal, the rear of your property is likely encumbered by a District easement and you will be directly impacted by this project. The District will require the removal of unpermitted fences, small sheds, pergolas, gazebos, lighting and/or other improvements situated within the easement which may obstruct removal of trees within the District's right of way. While the District will endeavor to minimize damage to any permitted structures, it is advisable that prior to commencement of the project, all such improvements be removed or safeguarded. In addition, any improvements (i.e., fences, sheds, docks, etc.) within the canal, on the canal bank or within the District's canal maintenance easement require a Right of Way Occupancy Permit. Information on District Occupancy permits can be found at www.sfwmd.gov/rowpermits.

All impacted residents will be notified again two weeks prior to the commencement of work in a specific area. District staff will continue to update residents impacted by the project until all work is complete. A website has been created to inform residents of canal closures, access details and status updates. The website is www.sfwmd.gov/c100acanal. If you have any questions or concerns in regard to this project, please feel free to contact me at 305-513-3420 x7249 or by email at avilaboy@sfwmd.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Armando Vilaboy", written over a horizontal line.
