

Science Camp

The tenth graders are off to Mount Kare!

October 3 – 7th.

We will be studying Natural History.

This course is an introduction to the flora and fauna of the Angeles National Forest held at RHP's camping facility at Mount Kare. In this week long course, students will work with a team and survey an area in the forest where they will take pictures of the living organisms around them. Teams will identify and classify different types of birds, mammals, reptiles, herbs, shrubs, and trees. Photographs with scientific names are given in a media presentation for part of the team grade. Dichotomous keys, taxonomy, ecological terms, and the map of California are part of the topics covered.

SUPPLIES FOR 10TH GRADE SCIENCE CAMP

- ___ Spiral notebook (Or paper in folder/clipboard)
- ___ Pencils
- ___ Pen
- ___ **Glue Stick**
- ___ **Scissors**
- ___ Metric ruler (at least 6 inches)

TEAMS

BADGERS

Zach Burl
Megan Metz
Dominick Yang-Lim
Gwen Del Grosso

HAWKS

Diego Householder
Isabella Fairley
Derek David

BOBCATS

Landry Johnson
Kaila Le
Izzy Racho

MOUNTAIN LIONS

Ivan Tkach
Marco Chan
Samantha Montez

COYOTES

Nate Curtis
Winston Yang
Euro Lopez

BEARS

Gabby Nolasco
Andy Xu
Alyssa Islas

EAGLES

Ashley Hernandez
Josh Curtis
Maya Espinoza

My student has shown me the list above of items needed for Science Camp next week!
