To Whom It May Concern:

Pest Control has been designated as an Essential Service both nationally and in the state of Pennsylvania as a vital component in the protection of public health, property and food supply chains.

On a federal level, our business of pest and termite control, which is identified as "Exterminators", is categorized as "Essential Businesses" as outlined in the Department of Homeland Security [CISA document](#) dated March 19, 2020, page 9 under "Public Works", item 3.

In Pennsylvania, "Pest Control Services" is classified as a 'Life-Sustaining Service' under the Services to Buildings and Dwellings within the [list of business types](#) that may continue physical operations, dated March 21, 2020, in relation to the Governor's Executive Order mandating closures for COVID-19 mitigation. Additionally, the Pennsylvania Department of Agriculture which regulates the structural pest management industry has [listed pest management as essential](#).

Please know that as protectors of public health, food and property, we take our role in safeguarding your quality of life very seriously. Pest control professionals are responsible for protecting against rodents, insects, arachnids and other animals that can damage property and threaten people's health through the spread of disease and bacteria, in addition to inflicting painful bites and stings. Our critical services extend into people's homes and businesses, as well as major commercial operations such as healthcare facilities, food processing facilities and more.

Thank you for entrusting **[Your Company]** with the health and wellbeing of your home or business.
