### NWCOA Bat Standards

#### Certified - Part 1

June 11, 2018 8:00 am - 5:00 pm

*\*approved for pesticide recert credits in MA & CT*

This NWCOA certification course is designed to aid in the survival of bats in North America, as well as educate those who perform bat exclusion services in residential and commercial structures. Upon completion of this course and successful passing of a test, the WCO will become NWCOA Bat Standards Compliant, receive a certificate and have use of the logo.

The Bat Standards Certified Course (Part 1) covers bat biology (little brown, big brown, free-tailed, and pallid bats), bat behavior, bat identification, bat morphology, service agreement language for bat removal and guano removal, seasonal restrictions, inspection techniques, equipment, safety, detailed exclusion techniques, job pricing, decontamination techniques, rabies, bat handling, updated white-nose syndrome information, and much more.

**\$175 members/\$250 non-members**

### NWCOA Presentation of Bird Barrier Certified Installer Course

June 12, 2018 8:00 am - 4:00 pm

Birds cause millions of dollars of damage to homes, commercial properties, government buildings and industrial facilities each year. The Bird Barrier certification training course will help you determine which bird control product is suited for solving any bird problem and how to install that product on your client's property. Upon completion of this course and successful passing of a test, the WCO will become a Bird Barrier Certified Installer and receive a certificate.

The Bird Barrier certification training course will provide an introduction to bird control, bird biology and habits and talk about bird pressure. The class will discuss how to choose bird control products, and how to sell them to your customers. Finally, we will do hands-on mini installs on several products.

**\$175 members/\$250 non-members**

## NWCOA - The Value of Education

### How does industry training help you to build your business?

Training and Education make up the cornerstone of NWCOA's strategy to benefit members and the industry.

*Education increases competence in technical and business management subjects.*

*Education raises professionalism of individual WCOs and the Industry as a whole.*

*Education has both intellectual and economic value.*

*WCOs that invest in training and education are better able to create solutions to their customer's wildlife issues.*

*Educated WCOs help build a strong business that is responsive to your clients' needs.*
