

K-5 ENRICHMENT SCHEDULE

It is important for students to receive equal instructional time in all enrichment classes. Therefore, classes participate in enrichment classes using an A-E rotation schedule. Enrichment classes will not be on a specific day of the week. Enrichment classes will be changing throughout the school year when school is not in session.

EXAMPLE CALENDAR:

In the example, students go to their C enrichment class on Friday. Since we are off school on Monday, September 5th, students will attend their D enrichment class on Tuesday. This rotation allows all students to receive equal instruction across all enrichment classes.

We will place in the front of each student's folder or planner their A-E rotation for enrichment classes (Example: A= Music, B=PE, C=Digital Literacy, D=Art, E=STEAM). In addition, we will have a calendar similar to the one shown above posted on our school website. The calendar for the month of August is posted on the back of this letter for your reference. When winter weather becomes an issue, we will be communicate the enrichment schedule through the e-newsletter and school website.
