This program is being presented by the Franklin County Sheriff's Office, and is designed to educate parents, teachers, social workers, community partners, and anyone with a nexus to children about current drug trends, terminology and paraphernalia.

The goal of this program is to arm parents, teachers and the community with the information necessary to recognize the influences of the drug culture on our children, familiarize them with the many different drugs readily available, and share the experiences and knowledge of undercover narcotics officers so we are better prepared to help our children make the right choices.
