Reaching out to our Communities:

We are excitedly anticipating the 2016 SME Golf Extravaganza and look forward to seeing you at the tournament. The funds raised from this tournament will help further educate students, communities and elected officials about the roles of the regional mining industries. We are working hard to make this happen. Below are some of the contributions made by SME and MEC in the past year.

- Awarded 4 mini-grants to K-12 schools in our mining area to support science education projects totaling \$5,000 collectively.
- 20 awards presented to Junior and Senior High Science Fair participants in Hardee, Hillsborough and Polk Counties with an additional 3 awards presented to top mining-related projects.
- 6 special awards presented at the Florida State Science Fair.
- 7 scholarships awarded to college-bound graduates from DeSoto and Polk Counties pursuing a degree in engineering, science or mathematics.
- Supplied backboards and display materials to DeSoto and Hardee County Junior and Senior High School Science Fair participants.
- Printed and distributed to elementary students over 5,000 copies of the pro-mining message workbook "Mining Rocks".
- Sponsored more than 30 teachers attending the FIPR Summer Phosphate Workshop.
- Two \$3,000 David Gossett Memorial Scholarships were awarded to two of the top mining co-op students working at Florida mines.

Society for Mining, Metallurgy & Exploration
