

# 2022 Northern California State of Reform Health Policy Conference

## 2022 Northern California State of Reform Health Policy Conference

**March 23, 2022 | At the SAFE Credit Union Convention Center**

Now in its seventh year, the 2022 Northern California State of Reform Health Policy Conference convenes 350 senior health care executives and health policy leaders from across the silos that make up California's health care system.

State of Reform pulls together practitioners, thought leaders, and policymakers – each working to improve our health care system in their own way – into a unified conversation in a single place. It is sure to be one of the most diverse gatherings of health care leaders and one of the most important statewide events in California health care.

**Join us March 23rd to wrestle with the most pressing challenges facing Northern California's most senior health care and health policy leaders today!**
