AND ENVIRONMENTAL SCIENCES

Tree Series Woodlawn Cemetery and Arboretum

1502 W. Central Ave., Toledo, OH

Walks led by Amy Stone, Extension Educator, stone.91@osu.edu
The Fourth Tuesday of the Month, March - November

Spend the evenings discovering trees. With over 100 different species of trees at Woodlawn, it can be tricky to tell them apart! On the tree identification walks, participants will be focusing on the subtle but easy cues that lead directly to identifying a tree. Learn techniques on diagnosing some common (and maybe not so common) tree problems. Which ones need immediate attention and which ones are just cosmetic and won't compromise the health of the tree.

We will be meeting at three different locations within the Cemetery to highlight all the Arboretum throughout the series.

Questions: contact Woodlawn Cemetery at 419-472-2186 or OSU Extension at 419-578-6783
