IRC REDESIGN OVERVIEW AND NEXT STEPS

ODEW has announced major changes to how Industry-Recognized Credentials (IRCs) will count toward graduation beginning with the Class of 2030. Students using IRCs as a graduation pathway will need to earn either one approved standalone credential or an approved credential bundle.

Now is the time to prepare! Aaron Weisbrod will lead several two-hour virtual PD sessions covering the changes, key tools and processes, and important considerations for next steps. Don't wait to understand how these changes could impact your students and programs, register today for one session or attend as many as you need to be ready for the graduating class of 2030.
