

HAPPY ANNIVERSARY, HART

Our beloved friends – Lloyd Cenaiko and the entire blessed team of the HART mission! We wholeheartedly congratulate you on the 30th anniversary of the HART mission!

It was a great joy for us to see you visit us and sincerely rejoice with us during the construction of the center. We will never forget that you were there with us on such an important day – the opening of the complex in 2016.

Thank you for participating in the establishment of the "Agape Ukraine" center, which has been serving people with disabilities for over 10 years now, becoming a place of comprehensive rehabilitation, restoration, and new life. During this time, more than 1,500 people with severe disabilities have undergone rehabilitation in our complex!

We also thank you for participating in retreats for families caring for children with disabilities. Thanks to you, we have seen smiles on the faces of children and their parents – people who often carry a heavy burden of daily worries. We especially want to thank you for your support of Ukraine from the very first days of the war.

Thank you for caring for the residents of the Kherson region, whom we have had the honor of serving after de-occupation for over four years now.

The Bible says: "Carry each other's burdens." And we are sincerely grateful to you for prayerfully and practically carrying the burden of our people for 30 years. Your love is not just words; it is action that changes lives.

We also await with special anticipation in our hearts the day when the war ends – and you will once again be able to come to us, visit "Agape," and join us in praising God for His wonderful deeds and miracles that He has performed and continues to perform in each of our lives.

But even more, we look forward to that great meeting — in the arms of Christ, when everyone whose lives we invested in together, whom we prayed for and carried in our hearts, will gather together before God's throne. And then, one united praise will resound to our

**With love and deep gratitude,
Serhii & Natalia Bolchuk (Founders)
and the "Agape Ukraine" team**
