Workforce Development
Computer Technology Training Courses

Joining together to address Western New York's workforce needs, our partnership will build stronger workforce education programs to respond to our community. Our goal is to make all learning meaningful, verifiable, and valuable in a changing economy. In collaboration, we will build regional capacity to educate trade-impacted, unemployed persons, veterans and other workers to obtain the skills, competencies, and credentials needed to seamlessly transition into demand occupations and to advance along a career pathway.
