**ABOUT US.** Minnesota Comeback is a broad coalition of families and advocates, schools and funders committed to K-12 systems change so all students can benefit from schools that work.

We believe all students should be able to attend schools that are rigorous and relevant. Toward this goal, we unite people across our community to work in tight coordination on the strategies shown to help schools grow and improve: increasing the number of extraordinary educators, fostering deep parent engagement, advocating for supportive public policy, and helping schools access quality facilities.
