

## SDWD Curriculum & Instruction July Newsletter 2021

---

### State Assessment Results

Throughout the summer, the SDWD will be receiving results from spring 2021 state assessments. Full results will be made public later this fall when the State of Wisconsin releases the annual school report cards for district accountability.

Individual score reports for your child can be picked up during the District Registration Day on August 12. If score reports are not picked up that day, individual results will be sent home either via U.S. Mail or with your child during the first week of school next fall.

As always, we remind everyone to ensure that students are reading for 45-60 minutes a day over the summer months (regardless of age). This is a great way to keep the brain active and primed for continued learning.
