

Foundation offering free breakfast every school day for students

As you know, the Wisconsin Dells Education Foundation is generously supplying free breakfast to ALL students in the SDWD this year, regardless of income/F&R status. This is a great opportunity, and we want more students to take advantage of the generosity of the WDEF. A nutritious school breakfast can fuel your student for success. Children who eat breakfast are more likely to...

- Reach higher levels of achievement in reading and math
- Score higher on standardized tests
- Have better concentration and memory
- Be more alert and maintain a healthy weight.

Every school in our district offers breakfast in the morning, and our Food Service Department takes pride in offering a variety of delicious and nutritious options.
