

## **National Policy Goals**

### **Priority National Policy Goals of Elders Climate Action (Active leadership)**

- Revenue Neutral Carbon Fee and Dividend Legislation - Legislation to enact a steadily rising fee on carbon fuels at the point of extraction or entry into the U.S; with the proceeds fully refunded to citizens.
- Full implementation of the EPA's Clean Power Plan to regulate and reduce carbon emissions from all U.S. power plants.
- Effective regulation of methane emissions from all sources in the U.S.

### **National Policy Goals That Elders Climate Action Supports**

- Divestment of fossil fuel stocks by public and private institutions
- Keep fossil fuels in the ground
  - End fossil fuel extraction on public lands
  - Ban off-shore drilling for fossil fuels
  - Phase out hydraulic fracturing as a method of mining fossil fuels.
  - Environmental Justice: Protect vulnerable low-income and minority communities from the devastating impacts of pollution of their air, ground, and water.
  - Remove special interest money from U.S. political campaigns.
  - Oppose construction of additional pipelines carrying fuels through the U.S.

**Adopted by the Elders Climate Action Steering Committee, 4.20.16**
