### MARCH IS DEVELOPMENTAL DISABILITIES AWARENESS MONTH

**Pictured:** Jeff F, who lives at Misericordia. Jeff takes part in coffee production and donates his time and voice to groups like Best Buddies, Together for Choice, and Special Olympics to speak on issues impacting individuals with Developmental Disabilities.

Developmental Disabilities Awareness Month aims to increase awareness about Developmental Disabilities and the inclusion of people with Developmental Disabilities in all aspects of society. Jeff F, who lives at Misericordia says, "People with Intellectual and Developmental Disabilities (I/DD) should have a choice of where they want to work, where they want to live, and what they want to do with their lives." He adds, "Everyone should learn about people with Developmental Disabilities and figure out ways to get involved [in supporting the rights of people with Developmental Disabilities]. He recommends Misericordia-affiliated organizations such as **Best Buddies** International, a friendship initiative, **Together for Choice**, an advocacy group for I/DD rights, and the **Special Olympics**. If you are interested in getting involved in these programs, talk to the directors in your area!

## COVID UPDATES

- **HOW TO KNOW IF YOU ARE UP-TO-DATE**

- [Click here](#) to read CDC's vaccine guidance, as observed by Misericordia. To find vaccine clinics in your area, visit [vaccines.gov](#).
- **Reminder:** As of January 1, 2023, Misericordia will only provide protected pay for employees who are up to date with COVID vaccines. For anyone who tests positive for COVID and is not up to date, Misericordia will no longer cover their required time off. Be sure to give a copy of your vaccine card to your supervisor.

- **UNDERSTANDING OUR REVISED MASKING PROTOCOLS**

- Some of you have asked why we have not moved to "mask optional" while we are at the moderate level of community transmission in Cook County. This is due to continued Covid activity on campus and continued fluctuating transmission levels in the community. We are looking for sustained reduced levels of activity both on campus and in the community. The goal is to keep the residents healthy but to also keep all of you healthy as you work closely with one another and the residents every day. Thank you for your patience as we continue to navigate covid in our everyday lives here at Misericordia.

## HELPING RESIDENTS MAKE HEALTHY CHOICES

### DID YOU KNOW?

March is National Nutrition Month, a time devoted to raising awareness about the nutrients and substances we consume for our overall health.

After that, [continue to page 11](#) here in Campus Connections to learn about our campus dieticians who promote healthy food choices among our residents.

Misericordia's mental health counselors and dietitians are partnering on a series to discuss comprehensive wellness and resident care. Each month we will share information to help support you in supporting our residents through a balanced approach that focuses on holistic health – social, emotional, physical, and mental wellness. When health goals come from a place of gratitude for the body they are in, consistent movement and nutrient-dense food choices can truly be an act of self-care for our residents. Join us over the coming months as we consider the connections between mental and physical health and take a deep dive into the emotional side of well-being.

Both are facets of HR that are crucial in attracting new employees to join our community in addition to retaining the wonderful employees we have by providing a strong benefits package. ## EMPLOYEE REFERRAL BONUS

One of the best ways we can find great people to join our teams is by spreading the word that Misericordia is hiring. There is no guarantee that all referrals will be hired but we can guarantee that all referrals who meet the qualifications, will be interviewed and considered. Hiring managers do their very best to hire talented individuals who will add to the team dynamic and provide great care for our residents. **You can earn up to \$1000 for each successful hire who works with us for a year, as a result of your efforts to refer them to us.** In the next few days we will have recruitment materials in our reception areas, please take them and pass them along. If you need additional material, you can reach out to [careers@misericordia.com](mailto:careers@misericordia.com) and our Recruiting Team will assist you.

# HR AND STAFF DEVELOPMENT

## PHI IN ACTION

As part of our occasional series on "PHI in Action," we spotlight Jennifer Tosca (pictured left), QIDP for the Hulseman-Murphy CILA home, to learn how she has applied PHI training to her work at Misericordia. Jennifer has worked at Mis for 8 years.

### ***How do you think PHI training has helped you in your role?***

Jenny: "I try to exercise my PHI training skills by being more aware of assumptions and judgments we discussed in the classes. We don't realize that everyone is going through something, and learning how to be both empathetic and sympathetic with those we cross paths with has helped build stronger relationships with the people I work with. I have also learned how to study different personal styles (i.e. personal preference communication styles) whether they are introverts, extroverts, detail-oriented, and much more. I like to think that this is what makes a team so unique."

### ***What are some of the points of the training that stood out as most useful to you?***

Jenny: "This whole program provides a different outlook on your day to day job/role. I think it opens your eyes to how you and your body responds to conflict, and how you choose to problem solve. It reminds you that pausing before you respond can be appropriate. It allows us to be more aware of listening and reminds us that sometimes not giving feedback can be enough for the individual. It also helped me to ask more clarifying questions to gain information."

### ***Do you find you use your PHI skills outside of work?***

Jenny: "Yes! I use this at my second job as a developmental therapist in early intervention. Working with children 0-3 with a developmental delay can be tough on families, and this has allowed me to be a better active listener. I used to find myself constantly wanting to fix all the problems that arose, but this course truly showed me how to pull back, listen, and find the best way to respond or not because it is ok to just listen."

### ***Why do you think PHI matters?***

Jenny: "PHI training has really helped me to be the best leader and remember that even the smallest difference makes the biggest impact in someone's life. If I can help just one person every single day I feel as though I have made a difference. PHI has helped me realize how important communication can be and how it can affect a team. As a case manager in the CILA department it is important to manage 6-7 residents, but also manage the staff that works within the home. I was once asked this question "If the flower doesn't grow, do you blame the environment or the plant?" This stood out to me because, as a case manager responsible for 6 men, it is important that the environment is taken care of, so that these boys can continue to grow and strive to be their best."

As a bonus, I wanted to recommend the book Atomic Habits by James Clear as this can help keep you motivated in your day to day life. I also recommend listening to The Mindset Mentor with Rob Dial on podcasts because growth is a fundamental principle of being human, so it is important to go out and do something new or find something to look forward to! I am always trying to evolve J

*Thank you, Jenny, for your efforts to build a strong, supportive workplace culture at Mis!*

# CREATING OPPORTUNITIES

## LISTENING SESSIONS

Thank you to those of you who joined us for the listening sessions that we offered in January/February. This is the first of many that will be offered throughout the year. Hearing you and getting your input helps us as an organization better understand where we have room for growth and what we are doing well. We are carefully reviewing your feedback and are in the process of developing actionable steps that will be shared at your department meetings over the next couple of months. This is another opportunity for further discussion that we encourage everyone to participate in. We will also be sharing more global information through Campus Connections as a way to keep everyone informed. If you didn't join us this time, please consider joining next time as your input matters.

## LEADERSHIP SERIES

As part of Fr. Jack's vision for developing a leadership pipeline and developing our management staff at Misericordia, February was the kickoff of our monthly Leadership Series. This is an opportunity to provide foundational leadership learning that offers growth and development for new and existing managers/supervisors. Thank you to each of you that joined us and we look forward to seeing you in March!

# COMMUNITY DEVELOPMENTS

## CAMPUS CONCRETE SURFACES

As many of you have noticed, we have multiple concrete surfaces throughout our campus that are uneven and present a challenge to our residents. We are in the process of identifying and prioritizing the areas that are most in need of repair. We will finalize in early April those areas that we intend to replace by the end of October, as this is the window in which concrete replacement can most efficiently be accomplished. Some areas are a City of Chicago responsibility, but most are Misericordia's alone. When and where possible we will notify the campus when this work commences and interrupts resident travel across campus.

# DAY SERVICES

## COMMUNITY DAY SERVICES PASSES FEDERAL INSPECTION

**Pictured:** Participants in our Community Day Services programs exploring and working in various Chicagoland communities.

In October '22, as part of a years' long process, Misericordia's Community Day Services was inspected by a team of federal and state authorities. As one of only three campus-based facilities surveyed in Illinois, the purpose of the inspection was to determine if the CDS program had any "isolating" qualities in services provided to the residents, due to services originating from campus. The surveyors witnessed first-hand that CDS participants frequently interacted with the community, whether through community employment, volunteering, or learning and recreating in the community. The surveyors were equally impressed by the services that were offered on-campus, seeing firsthand how the residents enjoyed the many diverse opportunities found right here, along with all the great relationships they enjoyed on campus. Misericordia's Developmental Training program participants enjoy many of the same opportunities, both on campus and in the community. After three months of patiently waiting, CDS learned that the inspection was passed, and Misericordia was noted strongly in the "Promising Practices" section of the report.

## UNDERSTANDING CATHOLIC IDENTITY

"Lent is a 40-day season of prayer, fasting, and almsgiving that begins on Ash Wednesday and ends at sundown on Holy Thursday. It's a period of preparation to celebrate the Lord's Resurrection at Easter. During Lent, we seek the Lord in prayer by reading Sacred Scripture; we serve by **giving alms**; and we practice self-control through **fasting**. We are called not only to abstain from luxuries during Lent but to a true inner conversion of heart as we seek to follow Christ's will more faithfully. We recall the waters of baptism in which we were also baptized into Christ's death, died to sin and evil, and began new life in Christ." [What is Lent? | USCCB](#)
