We are excited to announce that Transportation has recently updated their bus routing software.

As of August 7th, 2024, parents/guardians should download the **MyRide K-12** app in order to review your students' bus information. Below is a link with instructions on how to set up the app. Just to clarify, the My Stop App is no longer in use, you will need to use the MyRide K-12 app.

*Parents/Guardians you will need your child's student ID in order to complete the setup.

If you are unable to download the app; you can also access bus information from

https://myridek12.tylerapp.com – you will still need your child's ID to complete the setup.
