

Meritus Health

Service Year Option — Open Opportunities

Meritus Health is hosting Maryland Corps/Service Year Option Members across its hospital and community programs. These are full-time, paid roles built for young adults (ages 18–24) who want real experience and a foot in the door of a growing health system — no prior experience or certification required for most positions. You'll work alongside professional staff, gain hands-on skills, and explore a career path in healthcare.

\$15/hr

minimum pay, full-time

\$6,000

completion award

9 months

minimum service term

Members also receive career mentoring, professional development, and wraparound support from the Maryland Department of Service and Civic Innovation (DSCI).

12 Open Positions (multiple vacancies) · as of July 13, 2026

PATIENT & CLINICAL CARE

- **Sterile Processing Technician**

Support the cleaning, sterilization, and preparation of medical instruments, with hands-on training to keep surgical tools safe, sterile, and ready for use.

- **Diabetes Outreach Caller**

Call patients to help them join diabetes education and prevention programs, answer questions, and help them register for the support they need.

- **Discharge Lounge Concierge**

Support patients leaving the hospital with a comfortable, organized space while they await transportation, offering hospitality and coordination.

- **Nutrition Services Assistant**

Prepare, deliver, and manage patient meals to dietary guidelines, working with clinical and food service teams to support recovery.

ADMINISTRATIVE & OFFICE

- **Access Registrar**

Be the first point of contact for patients — register them, verify insurance, collect payments, and keep information complete and accurate.

- **Accounting Assistant**

Support finance and strategy leaders by gathering data, preparing reports, and assisting with research, analysis, and presentations.

- **Legal Office Support**

Support Legal, Risk, and Compliance teams with document management, deadline tracking, and project coordination behind the scenes.

- **IT Helpdesk Assistant**

Serve as the "face of IT," providing first-line support for hardware, software, and networks while troubleshooting and installing equipment.

FACILITIES, TRADES & SAFETY

- **EVS Technician**

Perform specialized cleaning and sanitization across the facility to maintain a safe, clean, infection-controlled environment.

- **Central Distribution Tech**

Receive, manage, and deliver medical supplies and equipment to patient care areas, ensuring they arrive accurately and on time.

- **Skilled Trades Assistant**

Get hands-on exposure to facilities operations and maintenance, supporting the engineering team while learning building systems and safety.

- **Security Officer**

Help provide a safe, secure environment for patients, staff, and visitors by monitoring facilities and responding to incidents.

COMMUNITY & FOOD PROGRAMS

- **Food Farmacy Associate**

Support a food-as-medicine program by assisting patients at pickup, helping carry food, and sharing cooking-demo information.

- **Food Farmacy Distribution Driver**

Package and deliver food to patients as part of the food-as-medicine program, coordinating deliveries and documentation.
