Interested in Fostering a Child?

The *Washington County Department of Social Services* is in need of foster families for children of all ages, with the highest need being for families who are interested and able to care for sibling groups and teens.

Ask yourself the following questions...

- Do you enjoy working with children?
- Are you interested in being part of a professional team working toward reunifying children with their families?
- Are you a healthy, loving, financially stable adult who is willing to open your heart and home to children in your community?

If you answered yes to the questions above, the *Washington County Department of Social Services* would love to talk to you!
