Stellar®
FUNGICIDE

Pythium blight can be a devastating turf disease, with severe outbreaks often resulting in complete destruction of the turf. During summer's warm, wet conditions turf managers must rely upon history for prevention, predictive models for action and be armed with strong, effective fungicides like Stellar.

Stellar Fungicide is a unique, synergistic fungicide premix that provides excellent preventive and curative *Pythium* control which results in improved turf quality and appearance. The combination of fluopicolide and propamocarb, Group 43 and Group 28 respectively, increases the effectiveness of each component while offering a novel mode of action for improved disease resistance management.

STELLAR DELIVERS ULTIMATE PYTHIUM CONTROL

- Labeled for the control of *Pythium* Blight and *Pythium* Root Rot / Damping-Off
- Synergistic pre-mix of fluopicolide and propamocarb for even better control
- Excellent preventive and curative control for improved turf quality
- Novel mode of action (MOA) for improved *Pythium* resistance management
