

Promised Land

Inspired by a quote from Rev Dr. Tanya Sadagopan Minnesota Conference UCC
Music and Lyrics by Rene Pfister, Jan Mankowsky & Destiny Cooper

What can I do 'bout these horrific days?
I think about it all the time
Wishin' I could make it change
If you feel the same take my hand
We'll lead each other through the darkness if we can
We could be each other's promise even if we can't get to any promised land

A world with peace and understanding
Well, it seems like that's just a dream
Now why does hate get better branding?
Been fighting since humanity began
Some say it's hopeless, others say we're damned
We could be each other's promise even if we can't get to any promised land

Hold fast to love in places where hate invades
Hold fast to compassion when cruelty reigns
Hold fast to Justice til only peace remains. til only peace only peace remains

Every day we make a choice to find love in one another
If we take the time to truly see each other
Can we be kind? Honest? I hope we can.
Can we promise to take a stand?
We could be each other's promise even if we can't get to any promised land
we can't get to any promised land

Hold fast to love in places where hate invades
Hold fast to compassion when cruelty reigns
Hold fast to Justice til only peace remains. til only peace only peace remains
