

ALAMEDA 880 WASHINGTON AVE RAMPS RECONSTRUCTION

FACT SHEET

SPRING 2021

Caltrans proposes to reconstruct the ramps at Washington Avenue for the southbound I-880 by shifting alignment and adding one optional left-turn/right-turn lane to the off-ramp and shifting alignment and widening for truck turning movements for the on-ramp.

PROJECT DETAILS

Construction Start:	Spring 2021
Construction Finish:	Spring 2022
Contractor:	Teichert Construction
Project Cost:	\$4 Million
Project Funding:	SB1 SHOPP

Project Limits: On interstate route 880, in Alameda County in San Leandro at southbound off-ramp from route 880/23 connector to Washington Ave.

Purpose and Need:

Traffic queuing onto the Washington Avenue off-ramp was reported as the primary cause for rear-end accidents at the SB Route 880 / SB Route 238 connector. The purpose of the project is to improve the operation of the Washington Avenue off-ramp and on-ramp and thereby to reduce the potential for accidents.

Project Partners: Caltrans, Alameda County Transportation Authority, and City of San Leandro.

PROGRESS TO DATE

Stage One Construction

Temporary K-rails have been set, and temporary lighting work is under way. Roadway work will begin the week of April/25/2021.

STAY INFORMED
