

Take the *Deep Dive* with CTTT-RVA friends and like-minded others in the community this Fall and Winter!

CTTT-RVA facilitators, Hayat Bain and Jesse Johnson, are in conversation with a community organization we may partner with to offer a limited session monthly ***Deepening Dialogues Circle*** series this Fall and possibly extending into the Winter months. The purpose will be to deepen in our relationship with ourselves in this work and to create and deepen connections with others across and within racial lines to promote greater respect, understanding and healing.

Jesse and Hayat and possibly other trained CTTT-RVA facilitators will invite participants to co-create a sense of safe and sacred space which will allow for increasing vulnerability, trust and healing, as well as a deepening within themselves and between participants. This is why making a commitment to be present for all of the sessions (possibly 3) will be important. Details will be shared as they are determined, once our collaborative partnership arrangement with the community organization is worked out.

Email Hayat (Hayat@cttt-rva.org) **and Jesse** (jjjohn@startersbook.com) to express interest or if you have questions. We are looking forward to taking the ***Deep Dive of racial healing, justice and understanding with you!***
