

The Intersection of Schools And Mental Health Services

**JOIN US AS WE LEARN
ABOUT
SCHOOL-BASED
MENTAL HEALTH**

DATE: Thursday, November 17

TIME: 6:30 – 8:30 p.m.

**WHERE: Plymouth Middle School Cafeteria
10011 36th Ave N
Plymouth, MN 55441**

Schools often function as the “de facto mental health system for children. School-based mental health, which broadly includes mental health services offered in a school setting is an important strategy to meet the needs of children and families.

This educational forum sponsored by the Legislative Action Coalitions, Family Service Collaboratives and the school districts of Robbinsdale Area Schools, Hopkins and Wayzata Schools.

PANELISTS:

Kris Lofgren,
Department of Human Services

Mark Sander

Tom Delaney, M.A.T., Ed.S.
MN Department of Education
Supervisor, Interagency
Partnerships

Cynthia Fashaw, NAMI MN
Children's Programs and
Multi-cultural Outreach

Adam Levy, Parent
Singer & Songwriter

It is estimated that 20% of children in the United States at any time have significant emotional or behavioral disturbances.

It is further estimated that only one in five children receive services to address these outcomes, yet research shows that timely access to quality mental health services can reduce emotional and behavioral problems and enhance children's well-being and success.
