

Planar Helium Series Touch Screen Monitors

Interactive Touch Screen Monitors

The Planar® Helium™ Series is a line of 22", 24" and 27", Full HD resolution (1920x1080) interactive 10-point touch screen LCD monitors with a slim profile, glass front surface and wide viewing angles. Featuring projected capacitive technology, Planar Helium Series touch screen monitors registers up to 10 simultaneous touch points using either a finger or a stylus. With this interactive technology, Planar Helium Series touch monitors are extremely fast and accurate when browsing the web, scanning emails, editing photos or doing graphic design projects.

The Planar Helium Series offers two types of desk stands. Each stand is sleek, easily adjustable, ergonomically-friendly and designed for comfortable user experiences. Select models also include webcam and microphone. All models are backed by the industry-leading Planar® CustomerFirst™ warranty.

Planar Helium Series Stands

Helium Stand - Completely flat to 90° tilt

Dual Hinge Stand - Adjustable from 15° to 90°
