What's Great in Our State

Virtual Workshop

Supporting Student Mental Health: A highlight of innovative strategies to promote wellness

Thursday May 26th | 10:00 - 11:30 AM

Students today are facing many unique challenges and stressors that can have an impact on their mental health and wellbeing over time. New York State has prioritized the mental health of school aged youth by becoming the first state in the nation to require mental health instruction in the K-12 classroom.

Join us to learn more about positive behavioral interventions, coping strategies and assessments that are being used to support students. Together we will explore the implementation process, discuss challenges and successes and share lessons learned throughout the process of doing this innovative work.

Panelists

Jennifer Judge, South Colonie School District

Timothy Fowler, South Colonie School District

Dallas Foard, Lansingburgh School District
