

CLINICIANS WE NEED YOU.

First Responders show up for our communities every day. Now we're working to strengthen the support available to them.

Take Survey

The Mental Health Association in New York State is building a network of clinicians who are experienced in or interested in [working with first responders and veterans or military populations](#).

This effort will help expand access to culturally competent, trauma-informed care across New York State and better connect providers to those who need it the most.

If you are a licensed clinician in New York State, we invite you to complete our brief screening survey and be considered for this growing network.
