

## Lesson Planning 101

Have you ever felt mystified by the process of planning lessons for your adult learner?

In this hands-on workshop, participants will learn and practice some of the basics of ABE and ESL lesson planning. We'll practice writing clear, measurable objectives and building our lessons around them. We'll also discuss two types of lessons for adult learners. Participants will have a chance to brainstorm a basic lesson plan and share their ideas during the training. This training is ideal for both ABE and ESL tutors.

*Presented by Jenny Siegfried. Jenny Siegfried began her career in Adult Education as a volunteer tutor and has been employed as an instructor since 2005. She has worked with ESL students at every level as well as native-English-speaking adults with limited literacy skills. In spite of her teaching experience, she didn't "officially" learn how to write a lesson plan until she began graduate school in 2013. However, she firmly believes that lesson planning can be learned without graduate coursework.*
