

Best Practices for Teaching Digital Literacy

Join us for an interactive training on teaching basic computer literacy skills to adults. Whether you are an ESL, ABE or GED/HSE tutor or teacher, there is much to share and learn about this rich topic. Get answers to questions such as:

- Why teach digital literacy?
- What methods and approaches should I follow?
- How can I support learners in overcoming their fears regarding technology?
- What specific digital skills should I teach and how should I teach them?
- How can I build a quality lesson plan for my digital literacy class?

Gain activity ideas you can use to build your own lessons and curriculum! This training is suitable for volunteer tutors or staff who work with ESL, ABE, and GED/HSE learners.

Presented by Crystal Shannon-Morla. Crystal has 26 years of experience in college and community-based education programs. She worked for 2 years as a Digital Literacy Specialist at Howard Area Community Center where she developed digital literacy lesson plans and taught them in ESL and ABE classes as well as in workforce training workshops. Crystal is owner of [Digital Literacy Resources](#) an online one-stop shop to equip ESL and adult education classrooms with digital literacy materials and resources. She also works as a Digital Literacy Trainer for agencies, educational institutions and community centers that promote literacy and equip tutors, teachers and staff.

Friday September 27, 2018

2:30 PM to 4:30 PM

Onward Neighborhood House

5413 W. Diversey, Chicago

REGISTRATION: Please RSVP. Space is limited. Free to Literacy Works members; \$20 for others. To register, please e-mail register@litworks.org with your information: Name / Email address / Phone number / Agency / Job role.

Part of Literacy Works' **Digital Inclusion Project**, an endeavor to build digital literacy and access in our communities by sharing information and expertise. This is the second workshop in a series.
