

THE SUMMIT

ELEVATING EDUCATION AT BLAINE COUNTY SCHOOL DISTRICT

Volume 9

April 2, 2025

TEACHER FEATURE - Scott Slonim

"It will be fascinating to hear from professionals at the forefront of space exploration. I can't wait to share everything I learn with other BCSD teachers and my students."

- Scott Slonim, Hemingway STEAM School teacher

Scott Slonim is Ready For Liftoff!

Blaine County School District's Engineering and Design teacher at [Hemingway STEAM School](#), [Scott Slonim](#), has been selected to attend the [2025 Liftoff Summer Institute: Path to Innovation](#).

This prestigious professional development program for educators focuses on space exploration. It will take place this year in Houston, Texas from June 23 to June 27. Mr. Slonim will learn from leading scientists and engineers alongside teachers from across the country.

To apply for the institute, Mr. Slonim filled out an application and [produced a video](#) about his class. He also received a grant from the [NASA Idaho Space Grant Consortium](#).

"I am thrilled and honored to attend this institute," Mr. Slonim said. "We are always learning new things about space, and it will be fascinating to hear

from professionals at the forefront of space exploration. I can't wait to share everything I learn with other BCSD teachers and my students."

The Liftoff Summer Institute, hosted by NASA's Texas Space Grant Consortium, provides teachers with hands-on training, expert-led sessions, and behind-the-scenes access to space exploration facilities.
