PRESIDENT'S MESSAGE

BY BRADLEY L. EAST, M.S., P.E.

February is an exciting time for Engineers. National Engineers Week is right around the corner from February 21-27. This is our time to spread the word about the need for engineers and encourage young minds to explore science, math and technology. Engineers Week is a time to celebrate how engineers make a difference in our world, increase public dialogue about the need for engineers, and bring engineering to life for kids, educators and parents.

Unfortunately, because of COVID, many in-person events planned for this month are either postponed or outright canceled. Nonetheless, there are still many virtual events and activities to take advantage of. Be sure to visit DiscoverE and the ASCE Texas Section STEM Resources page for helpful outreach tools and more information on how you can get involved. Being a "girl dad" myself, I also want to single out Girl Day, which is a worldwide campaign to engage girls in engineering. Girl Day at UT Austin will be held virtually from Saturday, February 20 through Monday, March 1. Please visit <https://girlday.utexas.edu/> for additional details.

Traditionally, the ASCE Austin Branch does not host a February luncheon, partly because it conflicts with the annual TSPE Engineers Banquet. This year, the TSPE Engineers Banquet is postponed till May 2021. As a result, this unfortunate circumstance is our gain and we will be hosting a February luncheon. Drum roll... Our luncheon topic will be the State of Texas Capitol Complex project. So please join us on February 16th for this exciting opportunity to learn more about this massive undertaking.

If you have any questions, ideas or concerns, please don't hesitate to reach out to me at me at (512) 971-3911 or beast@polarisforensics.com. Please also follow us on Facebook, Linked In and Instagram for event recaps, upcoming events, relevant news, and updates.

Thank you for everything you do to support ASCE!

Bradley L. East, M.S., P.E.

CALENDAR OF EVENTS

FEBRUARY 2021

- 2/8 Dallas YMF Bridge Program
- 2/9 EWB Virtual General Meeting
- 2/11 Forensics Engineering Conference
- 2/12 Registration Deadline - Legislative Dial-In
- 2/14 Valentine's Day
- 2/16 ASCE Austin Branch February Meeting
- 2/21 Engineer's Week Begins
- 2/22 Legislative Dial-in Begins
- 2/25 Girl Day
- 2/26 Priority Deadline for CECON Topics

- ▶ **LOCATION** | Zoom Virtual Meeting
- ▶ **LINK** | [Click here to register](#)

MEETING TOPIC

TFC CAPITAL COMPLEX - REFLECTING ON PHASE I

Please join us for our February virtual branch meeting. We will receive a presentation about the "TFC Capitol Complex - Reflecting on Phase I" from Paul Bielamowicz, a Principal and Senior Project Manager with Page.

MEET THE SPEAKER

PAUL A. BIELAMOWICZ, AIA, LEED AP, PRINCIPAL / SENIOR PROJECT MANAGER

Paul has been with Page since 2004, previously working in the Chicago office of Skidmore, Owings & Merrill. At SOM, Paul collaborated on world-class projects including a 1,125-ft tall mixed-use tower in Chicago, and expansions to both the Dallas Convention Center and the Adelaide Convention Center in South Australia.

At Page, Paul has served as the lead architect on several such projects, including two additions to the Austin Bergstrom International Airport, a surgery and critical care expansion to Scott & White's University Medical Center in Round Rock, and a semiconductor manufacturing expansion for a division of Boeing in Sylmar, CA.

Paul has served in volunteer positions at the local AIA Austin chapter since 2006 and was awarded the 2009 Texas Society of Architects (TxA) Young Professional Achievement Award. In 2014, Paul was nominated for the position of TxA President, a three-year commitment beginning with service in 2015.

In 2007, he helped organize a design competition for an undeveloped parkland site in a lower-income area of East Austin, which resulted in the City of Austin receiving a \$500,000 grant from Texas Parks and Wildlife to help transform the site into Gus Garcia Park. Paul and the other founders of the Gus Garcia Park competition team received a Certificate of Appreciation from the Austin City Council for their efforts benefiting the community.

Paul A. Bielamowicz

THANK YOU TO THIS MONTH'S SPONSOR!

Pape-Dawson Engineers, Inc. is an innovative civil engineering firm dedicated to developing solutions to best serve their clients and the public. They offer a full range of services in land development, hydrology/hydraulics, water resources, transportation/traffic, surveying, environmental/geosciences, GIS, and mining.

Headquartered in San Antonio since 1965, with offices in Austin, Houston, Fort Worth, and Dallas, they have a history of providing quality services to a broad range of clients throughout Texas. For more information about Pape-Dawson Engineers, call 512-454-8711 (Austin) or check their website at www.pape-dawson.com.

SPONSORSHIP OPPORTUNITIES

SPONSOR THE ASCE AUSTIN BRANCH FOR 2021!

BY AUSTIN HELTON, P.E.

We ask that all members consider supporting your local ASCE branch during these uncertain and difficult times. Almost all the functions of the organization are dependent upon these sponsorships and we cannot do all the great things that we do, without YOUR SUPPORT!

For more information about the benefits of sponsorship visit www.austinasce.org/sponsors.

If you have any questions or for more information please email sponsorship@austinasce.org.

SPONSORSHIP OPPORTUNITIES

\$300 | ANNUAL SPONSORS

- Valid for 1 Year after date of purchase.
- Company logo is displayed on newsletters, mailers, and at ASCE branch meetings.
- Free postings on the ASCE job board.

\$350 | MONTHLY BRANCH MEETING SPONSORS

- Company highlight in event promotion emails.
- Special recognition at branch meeting event.
- Opportunity to give a brief introduction of your Company during the event.

\$300 | CONTINUING EDUCATION EVENT (2021)

- Company highlight in event promotion emails.
- Several additional levels of sponsorship available.

\$850 | SPECIAL BUNDLE RATE

- Save \$100 when you pledge to support all three!
- Includes Annual Sponsorship
- Includes one credit for monthly branch meeting sponsorship.
- Includes sponsorship at Continuing Education event.

THANK YOU TO OUR SPONSORS!

ASCE AUSTIN IS ON YOUTUBE!

BY GRISELDA QUINTERO, E.I.T. & LEANNE CANTALUPO, E.I.T.

Across the U.S. and the world, the COVID-19 pandemic forced people, businesses, and communities to make daily shifts in their operations. The ASCE Austin Branch was no exception.

In May 2020, we transitioned our monthly general meetings to a virtual platform. We've continued to convene over Zoom, and online meetings have become our new normal. Since COVID (and online meetings) aren't going away anytime soon, we've decided to make the most of it.

We're now recording & publishing our virtual luncheons on YouTube! We hope this new platform addition helps make your ASCE Austin Branch membership just as valuable to you as it was pre-pandemic.

Were you on vacation on the day of the meeting? Or maybe you had a conflicting appointment? Were able to attend but want to go back to double-check something you heard? No matter what your reasoning is, you're in luck! The ASCE Austin Branch YouTube Channel is LIVE! Click here to subscribe to our channel: [ASCE Austin Branch YouTube Channel](#)

The graphic features the YouTube logo at the top left. Below it is a play button icon with the text 'ASCE Austin Branch'. The main text reads 'NOW FEATURING:' followed by two thumbnails for '2020 NOVEMBER GENERAL MEETING' and '2020 DECEMBER GENERAL MEETING'. On the right side, the ASCE Texas Section Austin Branch logo is at the top, followed by 'IT'S HERE!' and a large 'SUBSCRIBE' button. Below the button, it says 'TO OUR YOUTUBE CHANNEL!'. At the bottom right, it says 'Also find us at:' with icons for a globe, Facebook, and Instagram, each followed by 'ASCE Austin Branch'.

ASCE AUSTIN JOB BOARD

Attention ASCE Austin Branch sponsors! Did you know the ASCE Austin branch has a JOB BOARD?

If you're looking to add new talent to your team, consider advertising on our website. Public entities (cities, counties, TxDOT, etc.) are also invited to post job openings.

If you're interested, please submit your job posting here: www.austinasce.org/job-board

ASCE 2021 SPRING SCHOLARSHIPS

BY ANDREA BRYANT, P.E.

The scholarship committee is looking for new committee members.

If interested, please contact Andrea Bryant and Laura Friello at scholarships@austinasce.org for more information.

ASCE TEXAS SECTION UPDATE

BY SEAN MERRELL, P.E., ASCE TEXAS SECTION PRESIDENT

ATTENTION ALL TEXAS YOUNGER MEMBERS: JOIN THE NETWORKING SHUFFLE

Since we are all experiencing various levels isolation as a result of the current global situation, the Texas Section Younger Member (YM) Committee thought we needed something to bring people together. ASCE Texas YM is excited to start, for the first time, a virtual networking opportunity that will bring the Texas YM community together called the Networking Shuffle... [click here to learn more.](#)

ASCE TEXAS LEGISLATIVE DRIVE-IN >> LAST CHANCE TO REGISTER

Members are invited to join us on February 22 through 26, 2021 for a series of virtual events as we advocate for infrastructure and our profession, armed with the 2021 Texas Infrastructure Report Card. The \$20 registration fee includes access to briefing sessions on key legislation and ASCE's legislative priorities, and training on lobbying and influencing your elected leaders. Events will be held over the course of the week and all attendees will be asked to schedule meetings with their respective elected officials – so you can put your new skills to work! Register by February 12 at www.texasce.org/our-programs/legislative-drive-in/. Want to know about Texas Section legislative activities? [Check out the most recent news article](#) from our Government Affairs Committee.

SEEKING SPONSORS & CAREER FAIR PARTICIPANTS FOR 2021 ASCE TEXAS STUDENT SYMPOSIUM

ASCE Texas Section's annual Student Symposium has something for everyone! The event fosters close association between engineering professionals and university students. The Student Symposium combines the Texas-Mexico Student Conference's concrete canoe student competition as well as a variety of other student competitions, a career fair, and seminars into one event. This year's seminars include technical seminars hosted by the ASCE Austin Branch and professionals from across the state are invited to attend the virtual sessions.

The event would not be possible without the support of our generous sponsors and this year's opportunities are a great deal! [View our sponsorship flyer here](#) for more details. And, if your company is looking to hire, you CAN'T MISS the Student Symposium Career Fair. Here, employers meet with over 400 students from universities from across Texas and Mexico in one place. Why attend (and pay for) dozens of career fairs this spring, when you can come to one and meet the brightest civil engineering minds engaged in leadership, teamwork, and professionalism?! [Join us](#) and experience the 2021 Student Symposium Career Fair using a highly-rated virtual career fair platform.

The Symposium will be held virtually on April 15-17, 2021 and hosted by the ASCE Student Chapter at The University of Texas at Austin. Visit www.texasce.org/our-programs/student-symposium/ for more details.

HIGHLIGHTS FROM THE RECENT ASCE BOARD OF DIRECTION MEETING

Did you know ASCE established the Government Engineers Council for a 3-year period? Wondering if student members are allowed to vote? Or, maybe you're curious about ASCE's society-wide and regional activities? View the recent report from ASCE Board Member & Region 6 Director Jerry Paz PE [here.](#)

ASCE TEXAS SECTION UPDATE, CTD.

BY SEAN MERRELL, P.E., ASCE TEXAS SECTION PRESIDENT

SHARE YOUR IDEAS FOR CECON 2021

We want to hear how YOU define the future of sustainability. ASCE Texas Civil Engineering Conference (CECON) 2021 speaker and topic proposals will be accepted on the theme: Laying the Foundations of Sustainability. Help shape our flagship conference this September by [submitting a topic today!](#) Priority Deadline: February 26, 2021.

TEXAS CIVIL ENGINEER: TECHNICAL ARTICLES

Did you know ASCE Texas Section's Editorial Committee regularly procures and publishes technical articles? The most popular 2020 technical article was [Lightweight Cellular Concrete for Geotechnical Applications](#) (January) with more than 2,000 views. The second most popular article was [I-10 Connect Project - TxDOT, El Paso District](#) (August) with nearly 700 views. Never miss a technical article by subscribing for monthly content releases at www.texasce.org/news/.

NOW ACCEPTING NOMINATIONS FOR THE EXCELLENCE IN JOURNALISM AWARD!

The ASCE Texas Section Excellence in Journalism Award honors journalists for outstanding coverage of civil engineers, civil engineering projects and civil engineering issues. The media has tremendous impact on public opinion. ASCE Texas Section would like to recognize journalism that enhances public understanding of the role civil engineers and civil engineering projects play in their communities. [Learn more here.](#)

ASCE'S 2021 COMPUTING IN CIVIL ENGINEERING AWARD

FROM WWW.CAEE.UTEXAS.EDU - NEWS & FEATURES

The American Society of Civil Engineers has selected William J. O'Brien, professor and associate chair for architectural engineering in the Department of Civil, Architectural, and Environmental Engineering at The University of Texas at Austin, to receive the 2021 Computing in Civil Engineering Award for his leadership in linking science, public policy and the construction industry to drive technology development and progress.

The Computing in Civil Engineering Award was established by the Technical Council on Computer Practices in 1995 to honor members of ASCE who made outstanding contributions to the application of computers to the practice of civil engineering.

O'Brien is active in service to the profession and the community and has held several leadership positions, including chair of the executive committee of the Computing Division of the American Society of Civil Engineers. As a researcher and educator he has led in the evaluation and implementation of complex systems for construction. His technical interests in Computer Integrated Construction include information integration, collaborative systems, human-computer interaction and implementation issues.

ASCE will present O'Brien with this award during the next ASCE Computing Division Event.

William J. O'Brien

YMF UPDATE

BY KATHERINE SMITH, EIT

For the second year in a row, ASCE YMF is offering a scholarship for high school seniors pursuing Civil Engineering or STEM! We are looking for 2020-2021 high school seniors interested in pursuing Civil Engineering, STEM, or a related field to apply.

The application is 6-pages long. Transcripts, SAT/ACT scores, 2 recommendation letters, and a video or essay are required for entry. The deadline is Friday April 16th, 2021.

GOVERNMENT AFFAIRS UPDATE

BY AUSTIN MESSERLI, P.E.

Due to the ongoing impacts of the COVID 19 pandemic, the 2021 ASCE Texas Section Legislative Drive-In will be held virtually this year. This bi-annual event brings civil engineers from across the State to meet with their representation in the legislature to discuss issues important to our industry and our communities.

With our industry seeing a direct correlation from the pandemic on infrastructure funding, this will be a critical moment to ensure we are making progress on improvements necessary to serve the ever growing population of Texas.

Mark your calendars for the week of February 22nd through the 26th as we host a weeklong effort to meet with our legislators. Joining in the event has numerous benefits:

- Briefing sessions on key legislation and ASCE's legislative priorities
- Virtual meetings with your State Senator and Representative, or their staff
- Discussions about engineering and infrastructure related issues within each specific legislative district
- An opportunity to educate legislators on ASCE's state priorities and position on key infrastructure bills
- Tips and best practices for fostering relationships with your local elected officials
- A chance to create relationships with your ASCE peers from across the state

Click this link to sign up: <https://www.texasce.org/our-programs/legislative-drive-in/>

Lastly, we are always looking for ASCE members to join in our efforts so if you or someone you know would be interested in being part of the Government Affairs Committee, do not hesitate to reach out the committee at do not hesitate to reach out the GovernmentRelations@austinasce.org.

The calendar has turned but the world is still operating largely remotely. So, SEI continues to carry out our mission to advance and serve the Structural Engineering profession in a virtual manner. Below you'll find information on our Professional Meetings, Structural Engineering Talks (SET) and on-line resources to help you make the best use of your screen time.

PROFESSIONAL MEETINGS

Goooooooooo! SEI has scored a presentation that should be of interest to engineers and soccer fans alike. In March we will partner with ASCE to provide a presentation on the new Q2 Stadium for the Austin FC MLS club at McKalla Place in north Austin. The presentation will be given by Mark Waggoner, Principal at Walter P Moore at the March 23rd ASCE meeting.

Additional information will be provided in the upcoming SEI e-blast and on the ASCE website at <https://www.austinasce.org/>

STRUCTURAL ENGINEERING TALKS (SET) 2021

Planning continues for SET 2021. We hope to hold it in person later this year but will adjust based on the continued impacts of the COVID-19 pandemic. Updates and all available information will be maintained at www.austinasce.org/sei/set

ADDITIONAL ONLINE OPPORTUNITIES

1. New SEI Standards Series ([Click here for details](#))

Join live, virtual sessions for exclusive interaction with expert ASCE/SEI Standard developers on state-of-the-market updates. Participants will learn about technical revisions and review a design example. Attendees are encouraged to join and participate in Live Q&A.

2. Career Path Series: Insights with Glenn Bell and SE Industry Leaders ([Click here for details](#))

One monthly discussion remains on Performance-Based Design. However, recordings of previous presentations are available for structural engineers across the entire career arc – from where to begin to possibilities beyond Principal. Live sessions are free for ASCE/SEI Members, but space is limited. \$35 registration fee per session for non-members. Members will be able to access the recording after the event, as well as resource links specific to each session.

3. SEI Structures 2020 Virtual Event ([Click here for details](#))

This recording is free and open to all. It features content on Generations@Work, Confidential Reporting on Structural Safety CROSS-US, and Performance-Based Design taken from the recently canceled Structures Congress.

4. SEI Structures Congress 2020 Proceedings ([Click here for details](#))

This site provides access to the papers that were to be presented at the 2020 Structures Congress.

5. ASCE Collaborate ([Click here for details](#))

This is a collaboration page normally reserved for ASCE members but now open to all. It contains several events that can be joined. Most events are free of charge.

Stay plugged into the SEI Austin Chapter via our website, where you'll find the latest and greatest on upcoming events. We always welcome your thoughts on future technical presentations and other special events – particularly during these challenging times. If there is something you would like to do, then we would like to hear about it. Please drop us a line at sei@austinasce.org.

FORENSICS ENGINEERING CONFERENCE

BY RADELL GIBBS

The annual Forensics Engineering Conference is being hosted by the Cockrell School of Engineering at the University of Texas at Austin.

This annual conference brings together the best of academic and industry for an exciting exchange on Forensics Engineering. By using real-world case studies such as hurricanes, structural failures and foundation issues, the conference focuses on lessons learned across a variety of topics. Topics covered in previous years include: non-destructive testing for forensics investigations, the role of the Forensic Engineer in the legal process, forensics related to hurricanes Harvey and Irma, and Engineering Ethics, among others.

Who Should Attend?

- Design Structural Engineers
- Forensics Engineers
- Engineers in materials laboratories
- Architects interested in technical issues
- Foundation Engineers
- Engineers in public service
- Engineers-in-Training
- Engineers involved in building envelopes

For more information on discounted rates, contact RaDell Gibbs at rgibbs@austin.utexas.edu or visit executive.engr.utexas.edu/epd/forensics.php
