

The National Organization of State Offices of Rural Health (NOSORH) and the National Association of Rural Health Clinics (NARHC) are delighted to introduce the Connections for Community Care project.

Funded by the Federal Office of Rural Health Policy (FORHP), this project will provide Rural Health Clinics (RHCs) across the nation with easy access to and technical assistance (TA) for comprehensive, community-centric COVID-19 on-site testing and is available at no cost to any RHC!

Connections for Community Care Project

COVID-19 Testing Technical Assistance Exclusively for Rural Health Clinics

Connections for Community Care project participants will receive:

- Resources to develop and implement a comprehensive, community-centric COVID-19 testing program
- Comprehensive tools to build testing capacity within the RHC
- Customized, in-depth, remote technical assistance to meet the needs of the RHC
 - maintain and grow operational and clinical viability
 - provide access to subject matter experts
- Assistance with data collection process for required reporting activities related to RHC COVID-19 Testing Program funds

We know that RHCs are the cornerstone of the rural health safety net and that you know your patients and your communities. We are committed to supporting RHCs where they are in caring for their communities during the pandemic and helping RHCs become equipped to take advantage of every available resource to ensure COVID-19 testing is available to the rural people you take care of every day!

Accessing additional information or getting started with the program is as simple as sending an email expressing interest to rhccovidtestinginfo@nosorh.org!
