

Thank you

Career Goals: My career goals are to be fully I-Car certified, work at a body shop and work my way up to learn everything I need to eventually one day open my own business when I am skilled enough to do so. Short term I would like to become really good at my craft and be fully self-sufficient, and long term I would like to transition to specialty cars whether that be classics, restorations, sports cars, etc. My motivation comes from my unwavering passion for cars, every day will be unique and I am in love with the challenge of figuring it out.

**ARC Sacramento Valley Region
- Porsche Club of America
Scholarship
2026 Recipient**

Dear Sacramento Valley Region - Porsche Club of America,

My name is Ebraheem Mirza, and I am unbelievably grateful for this opportunity and for being chosen for this scholarship. I have loved cars since I was young. I grew up in the era of Fast and Furious and Need for Speed, and this sparked an obsession with cars. Since then, I would spend all of my free time watching videos and shows about cars and going to car shows. Several years ago, I dived deep into Porsche, and I have been in love with the brand ever since! My dream is to someday be an owner of a Cayman or a 911. I never would have expected to be awarded a scholarship from a Porsche organization. I am very grateful and I hope to prove that it was well spent. Currently, I am enrolled in the automotive collision repair program at ARC, and my goal is to eventually open up my own shop, and even more so, start a business where I restore classic sports cars back to their former glory, but with modern enhancements, whether luxury or performance. They don't make them like they used to, and so I want to make them like they should be made. Thank you again for accepting me for this scholarship, I hope to someday show the fruits of my labor.

Sincerely,
Ebraheembeg Mirza
