

# Noel Garcia, CCA

---

Noel is head Crop Production Consultant and Vice President of Operations for TPS Lab. He was trained and mentored by Esper K. (Kay) Chandler, a Certified Agronomist and Soil Scientist.

His experience began in 1991, mastering the skills of laboratory work and field services. After the passing of Esper K. (Kay) Chandler in November 2008, he took over the helm of TPS Lab. Because of his experience and expertise, he began speaking at workshops for local groups and communities, including workshops for ACRES U.S.A.

He's also been invited to speak with heads of agricultural organizations in the United States, Canada and parts of Europe.

Many papers and videos have been authored by or feature work from Mr. Garcia's immense experience and expert knowledge of superior crop production.

Contact Us and book Noel for your next event.
