

World Skin Health Day 2025

Dear CSD Members –

July 8 is **World Skin Health Day**, and this year’s theme “No Health Without Skin Health” highlights the global effort to ensure that everyone, everywhere, can benefit from greater awareness, education, and equal access to dermatological care.

We’re excited to celebrate this day and to help raise awareness through social media! Below you’ll find a brief social media toolkit to help your organization easily post and engage your followers on World Skin Health Day. Please don’t hesitate to reach out to Natalie Mamerow, CSD Communications Manager, with any questions (natalie@coalitionofskindiseases.org).

Sincerely,

Kelly Barta
Executive Director, CSD
