- Most insurance plans can be billed. Anyone with Medicare part B or insurance should bring their card(s) with them to the clinic.
 - The quadrivalent (4 strain) vaccine is \$39 for those persons without third party payers.
 - Tdap (Tetanus/diphtheria/acellular pertussis) will be available for \$45 and Td (Tetanus/diphtheria) for \$35.
 - Hepatitis A vaccine will be available.
 - We offer vaccinations for everyone 6 months and older.
 - Vaccines will be provided for persons who are uninsured and cannot pay for the vaccine.
 - If you are allergic to any component of the flu shot, you should not receive the influenza vaccination at this clinic. Anybody who had Guillain-Barre Syndrome (French polio) within 6 weeks of receiving another flu shot should not have the vaccine at this clinic.
