	Kodak Mercury T-HD 1250 Plate processor	Year: 2009 SN: ME10409 Excellent condition Available: direct from stock	Plate processor for processing all brands and press ready thermal offset plates. The machine is meant to be integrated into a inline CTP installation, digital touch screen operating panel for speed, processing times, stabilizing, washing out, gumming and drying of the plates before further delivery to rack, stacker or other inline equipment.. Complete with refrigeration/cooler unit. Max. size: 1250 mms width Min. size: 320 mms length Speed: 60 - 200 cms/min.	€ 3.450
	Kodak KTP-1270 Plate processor https://youtu.be/Ny492rHbq9o	Year: 2013 SN: 137113600033 Excellent condition Available: direct from stock	Plate processor for processing all brands and press ready low-chemical thermal offset plates. The machine is meant to be integrated into a inline CTP installation, digital touch screen operating panel for speed, processing times, stabilizing, washing out, gumming and drying of the plates before further delivery to rack, stacker or other inline equipment. Complete with refrigeration/cooler unit. Max. size: 1270 mms width Min. size: 320 mms length Speed: 50 - 305 cms/min.	€ 2.950
	Glunz & Jensen 85 HDX Plate processor	Year: 2011 SN: 95505-0021 Excellent condition Available: direct from stock	Plate processor for processing all brands and press ready thermal offset plates. The machine is meant to be integrated into a inline CTP installation, digital graphical touch screen operating panel for speed, processing times, stabilizing, washing out, gumming and drying of the plates before further delivery to rack, stacker or other inline equipment. Complete with refrigeration/cooler unit. Max. size: 850 mms width Min. size: 285 mms length Speed: 50 - 220 cms/min.	€ 2.450
	Agfa Azura C85 (Glunz & Jensen) Rinse- and gum processor	Year: 2005 SN: 92700-0187 Good condition Available: direct from stock	Automatic rinse- and gum processor with manual feeder for thermal chemical free offset plates with an automatic plate insert start system. Recirculation and drying system included. With feeder board and standard delivery. Max.plate width: 850 mms	€ 1.650
	Lefra 10 550-200 Plate processor (2 pc in stock)	Year: 1988 SN: 2832 Good condition Available: direct from stock	Manual plate processor for developing small size conventional offset plates with a simple operation panel for all functions (speed, temperature, pump). Max.plate size: 550 x 750 mms Capacity: 15 liters	€ 150
	Lefra 430-500 Plate processor	Year: 1998 SN: 5654 Good condition Available: direct from stock	Manual plate processor for developing small size conventional offset plates with a simple operation panel for all functions (speed, temperature, pump). Max.plate size: 430 x 500 mms Capacity: 13 liters	€ 150

	Machine/type	Year/condition/available	Description/options	Price in Euros
	Hyfra VWK 7/1 Cooling- and circulation unit	Year: 1994 SN: 9403166 Excellent condition Available: direct from stock	Independent working cooling- and circulation unit for film- or plate processors of standard offset- or ctp plate production. This unit can even be used for cooling the ink- or dampening systems of offset printing machines. Simple and universal coupling connection. Cooling: 814 W Cooling: 700 kcal/h Pressure: 24 bar	€ 350
	Bartal-Tech Ltd. Lotem 400 conveyor Online bridge	Year: 2008 SN: 903 Excellent condition Available: direct from stock	Online plate bridge for online use between a Lotem 400 CTP and an online plate processor or plate washer with data connector for start/control. Max. plate width: 78 cms	€ 850
	Glunz & Jenzen C5 platestacker Automatic plate stacker	Year: 2010 SN: 100858 VX Excellent condition Available: direct from stock	Online fast working plate stacker with sensors for start/control. Can be placed behind any brand, type or size CTP line for stacking the plates onto a retractable trolley. Works independently from any (high performance) processor and will start automatically when the processed plate passes the sensor. The conveyor is driven to ensure complete removal of the plate prior to stacking. The speed is adjustable. Up to 75 - 100 plates will be stacked vertically on a retractable trolley that is on wheels for easy transport of the plates to the printing press. Max. plate width: 85 cms Max. plate length: 125 cms	€ 925
