# Statewide Transportation Improvement Program

# What is the STIP?

## Statewide Transportation Improvement Program (STIP)

- The state's four-year capital improvement program
- Includes the MPO TIPs, Rural TIPs, and Statewide program
- Consistent with the state's long-range transportation plan

## Transportation Improvement Program (TIP)

Serves as a short-term programming document that lists approximately four years of funded (committed from local, state, and federal sources) transportation projects.

### Metropolitan TIPs

- Developed by **MPOs** based on Metropolitan Transportation Plans (MTPs)
- Each MPO has its own process/tools for completing their TIP

### Rural TIPs

Developed by **TxDOT Districts** for areas outside an MPO based on rural long-range plan (statewide plan)

# State Transportation Improvement Program (STIP)

The STIP is TxDOT's federally required, fiscally constrained capital improvement program which contains multimodal transportation projects and investments that are expected to be funded and ready for construction or implementation within the next four years.

The STIP includes federal funding for projects, programs, and services in all areas of the state.

## Two types of STIP Revisions (see [guidance](#))

### Amendment (Formal Revision)

Involves a **major change** to a project

**Requires** public review and comment, re-demonstration of fiscal constraint, and conformity determination (nonattainment / maintenance areas).

### Administrative Modification (Administrative Amendment)

Involves a **minor change** to a project

**Does not require** public review and comment, re-demonstration of fiscal constraint, or a conformity determination (nonattainment / maintenance areas).

MTPs, TIPs, and STIP **must be** consistent and synchronized. Changes in the TIP must be reflected in the MTP.

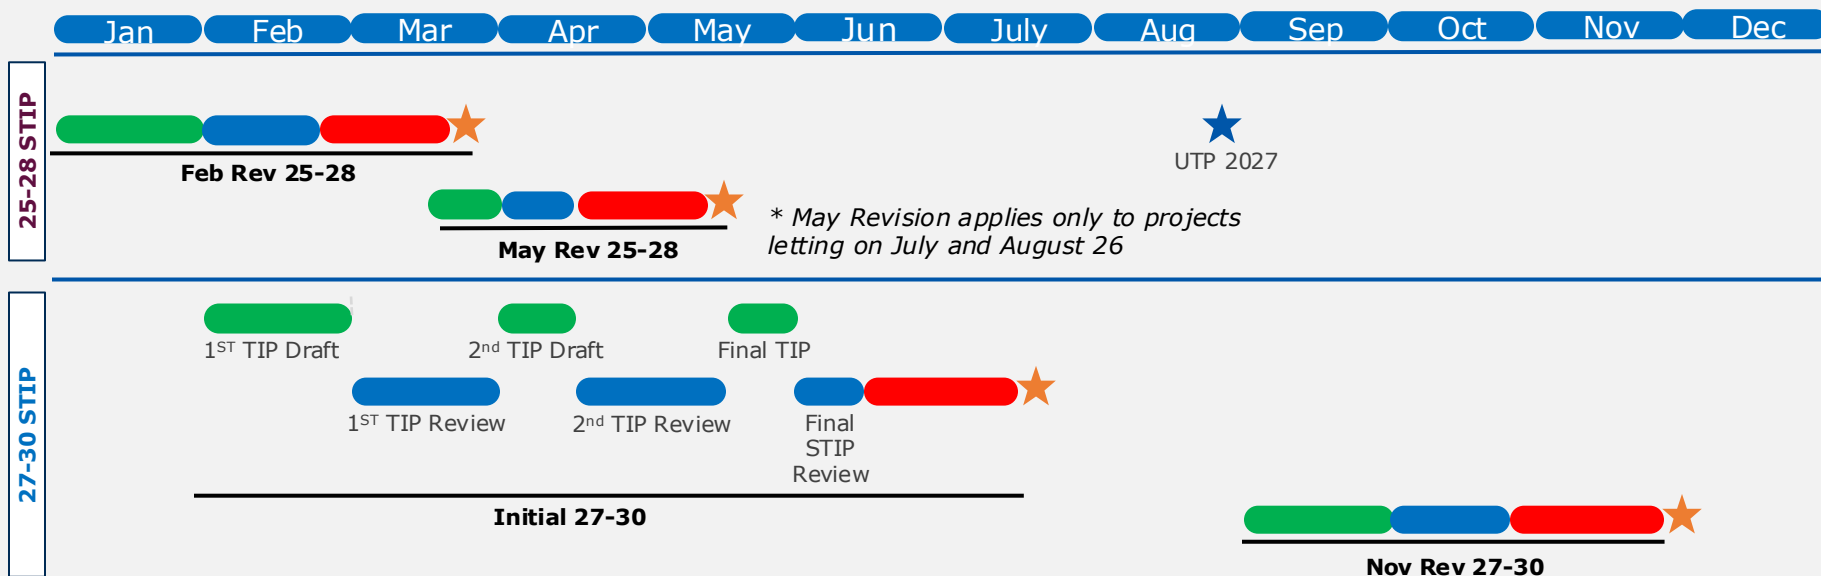

Planning  
Consistency → Project  
Delivery

Planning  
Inconsistency → Project  
Delays

## Development Timeline for 2027-30 STIP - Modified Revision Schedule

## STIP Public Involvement Process

|                                                              |                                 |
|--------------------------------------------------------------|---------------------------------|
| TxDOT Districts conduct public involvement for rural areas   | Timeline varies by District     |
| MPOs conduct TIP public involvement processes                | Timeline varies by MPO          |
| Public hearing notice is published in Texas Register         | 15 days prior to public hearing |
| 30 Day public comment period                                 | Starts once notice is published |
| Public hearing                                               | Held virtually                  |
| Public comments are addressed                                | After 30 Day period             |
| The approved STIP available electronically for public review | <a href="#">TxDOT website</a>   |

## Why this is important?

- Federally funded projects must be included in the TIP/STIP so that funding can be utilized, and **projects can be built!**
