Campus Advisers will be speaking about the **REAL COST OF COLLEGE**. Campus Advisers has been invited to speak at Arcadia High School many times over the past 15 years and was interviewed on Fox News Channel 10 about college planning mistakes to avoid. What you will learn by attending:

- **NEW!** Are you aware of the timeline & tax year changes for the FAFSA?
- **Don't' wait ...** It's important to understand the rules earlier than ever.
- **Real cost of college for ALL your students**
- **What loans are available and how to avoid taking on too much**
- **How parent and student earnings count against them when applying for "aid"**
- **The truth about athletic scholarships ...**

Is a "full ride" a reality for your hard-working student athlete?

- **Which assets are "counted" from the colleges & universities**
- **Can you send your child to a private university for less than a state school?**
- **The value of improving your student's admissions quotient for colleges**
- **Can you pay for college & still retire (at the amount you need)?**
- **Learn about the obstacles created by HIPAA and FERPA for your family**

Benefit from 15 years of experience assisting over 1500 families of realities-based consulting.

**The workshop is complimentary for all families**

*"I have to say that providing "peace of mind" is what Campus Advisers does best! ... My husband and I didn't have a clue what we needed to do to help our son find the best college and arrange financing. That is where Randy stepped in – big time! I had met Randy at one of his Campus Advisers workshops, and I am so glad that attended that night. It was so obvious that Randy knew exactly what he was talking about when it comes to navigating the world of selecting and paying for college. I learned enough in the workshop to realize that I needed more help, so I set an appointment with Campus Advisers. The first appointment was not what I expected – but in a good way! Randy put me immediately at ease, and we talked about family, my short-term and long-term financial objectives, and life in general. Randy is so easy going, low pressure, and he shows a real interest in doing whatever is best for you and your family. He was able to help us through the whole process of getting my son through the application, acceptance, and financing for college. The only time things went wrong is when I did NOT follow Randy's direction! Needless to say, as my daughter now also heads to college, I did not hesitate to reach out to Campus Advisers to help us again." – Andrea & Ed McNamara, Saguaro High Parents*

*"A huge takeaway from your presentation was the heads up regarding the sticker shock that we would face. Even with a full tuition scholarship, we would not have been fully prepared for fees and other expenses. At our free consultation, we realized we really did not know how the route to scholarships really works and you took the time with us in a one-on-one session to spell it out very clearly" -- David Birch, Glendale*

*"We had no idea how we were going to be able to pay for Michael's education on limited resources. His grades have always been good, but it didn't appear that scholarships would be dropping on our doorstep. We felt this was definitely something we should place in your professional hands, since we had no idea how to begin." – Joe & Jo Anne Garcia, Phoenix, parent of ASU student*

*"Randy's expertise in the area of college planning is off the charts. He put my mind at ease and I never looked back after getting his help. We were heading for a train wreck and didn't even know it until we connected with Campus Advisers. I am not keen on paperwork, especially when it comes to finances. Thank goodness for Randy Stoltz and Campus Advisers." – Anne Lippert, single parent of a DVUSD student*

*"I didn't know the first thing about applying to colleges, so when I heard you speak at Nicole's high school, I felt I had found someone to help me. As I am an old, single mother I haven't been able to save a lot of money for her education...you took the worry, stress and work off my shoulders...that will always be appreciated. Thank you for helping Nicole find out what her needs and dreams were. You found the perfect university for her right down to the small campus with lots of green trees...I never dreamed Nicole would be able to go to such a wonderful college and you both made it possible" – Janeen Weber, Deer Valley*

*"From our first meeting, showing my wife and I general information about the cost of a college education to your consistent availability and prompt attention to the details of getting our financial plan in order, I have found Campus Advisers to be very professional and helpful. With your guidance, paying for college has proven to be far less frustrating...you have guided us to be better prepared that our daughter's goals are attainable." – Dr. Randall Monroe DDS, Tempe*

*"The guidance I received was remarkable, and successful. I am a parent with limited resources but was still willing to seek Campus Advisers services because the competition for financial aid is tremendous. My daughter was accepted into the Fine Arts theater program at Boston University receiving nearly 90% of her tuition and expenses primarily through a university grant and scholarship. We truly are grateful having found Randy along with his entire staff. – Ellen LaBelle, single mother of 2 students...Phoenix*

*"As a small business person it is difficult to find the time to take care of everything that needs to be done on a daily basis . . . I attended one of Campus Advisers workshops and learned a vast amount of information that I was not aware of and would have had a difficult time finding on my own . . . I met with Randy a short time after that and was again impressed with his knowledge of what needed to be done, when it needed to be done and how it would be done." – Ray & Julie Pimley, parents of 2 students*
