

Dear Chamlian Families,

As the School Counselor, I am here for continued social and emotional support to our students.

Our students need to know their connection to Chamlian is ongoing and that their teachers and administration are proactive in their approach. We continue to ensure that our student's education and well-being go smoothly. For this reason we want to reassure you that our time and expertise are available to the students and parents.

I am available to speak over email, Google Hangouts, and Zoom. Feel free to take advantage of these services. I constantly checking in with the students, and will continue to do so.

I have created a [Distant Learning BINGO Challenge](#) for our students to participate in while being away from school, which is appropriate for all students (see attached). Please encourage your children to participate and send me updates of their completed tasks via email at [maral.keosseian@chamlia.org](mailto:maral.keosseian@chamlia.org).

Looking forward to hearing from you all!

Sincerely,

Maral Keossian  
School Counselor
