PRESENT STEELE DO SUMMERWIND
FOR SALE 100%

ABOUT STEELE

- Born August 1, 2024, the son of Violeiro do Riomar (imported semen) x Kadencia do Summerwind.
- Steele will be provisionally inspected and registered by the ABCCMM, the Brazilian MM Association in 2025. He is also registered with the USMMA, the American MM Association.
- Color - A/A, E/e, nd1/nd2. Bay with primitive markings. 2 curiosity variants, endurance muscle type, 1 DMRT3 gene - "gait carrier", no genetic or health issues.

SW HOPES:

- Steele has a great personality and gait, even at a young age. He would be a great stallion prospect or a super gelding for a saddle horse.
- We would like a new owner with the time for a young colt and who enjoys the journey of teaching him everything he needs to know for his future.
- Summerwind will have the ABCCMM inspection for provisional registration in February 2025.
