

## **Wearing a Mask as an Expression of Love**

Our spacious Sanctuary is open for Sunday Service. Wearing masks allows children under 12 to be among us and to help keep all our members, family and friends safe. We will have a sheet for you to sign upon entry so that we can do contact tracing if the need arises. UU Miami will follow current CDC guidelines that mandate using masks indoors at all times. Those who are vaccinated may remove their masks outdoors, but the unvaccinated should keep their masks on at all times, both indoors and outdoors. Please respect everyone's comfort level and physical space. There will be no singing from the congregation to minimize the spread of air droplets. No food should be consumed inside the Sanctuary. Please bring your own water bottles to drink in the breezeway and refill at our cooler. Online worship will continue for everyone who wishes to attend virtually.
