Welcome

CISV International is a global organization dedicated to educating and inspiring action for a more just and peaceful world. We are active global citizens building inter-cultural friendship, cooperation and understanding, with chapters in over 69 countries world-wide. **Our New York Chapter is completely run by volunteers!** We offer a unique learning experience that is available to kids as young as 9, youth and adults. **CISV** is non-political and non-denominational, evolving from a firm conviction that lasting peace is possible. **Please join us at our info session Nov. 17.**

“CISV is the best-kept secret in New York — you will never find another camp for your kids like it!”
Lauren, parent of Vivian.

“Our daughter was deeply moved by her CISV experience and returned with a more open, radiant spirit. Love seemed to ooze from her every pore.” *Louisa, parent of Michaela.*

Programs

Starting with children

Our CISV programs are **for all ages**. Our original and unique Village program for 11 year olds is a great introduction to the fun, friendship and educational experience that CISV offers. CISV approach

Learning by doing achieves lasting learning outcomes that impact on our participants emotionally and in their everyday lives at home and away.

Peace Education

Peace education provides us with the attitudes, skills and knowledge to become agents of change, both locally and globally. Though peace education, CISV seeks to educate and inspire our participants to become “active global citizens” working towards a more just and peaceful world.

Peace education looks at local and global issues that are relevant to us all, recognising that peace can mean much more than the absence of war. In fact, peace education encourages us to look at a wide range of issues and helps us gain a better understanding of:

- our own identity within the local and global community
- basic human rights as well as forms of exploitation and injustice
- conflicts and how they can be caused, prevented and resolved
- sustainable solutions for environmental and development issues

CISV peace education content:

In CISV we have four peace education content areas which are explored in our programs and delivered in a way that is both **age-appropriate and experiential**. The content areas are:

- **Diversity**
- **Human Rights**
- **Conflict and Resolution**
- **Sustainable Development**

CISV believes that fostering friendship between people of different nationality, gender, age, race, culture, and class is a key building-block for peace.
